## THEY ACTUALLY

Food Eaten is Worthless Unless Digested-Some Stomachs Must Have Help:

Food taken into the stomach which, rom the nature of the food of the ondition of the stomach, is not digested, is worse than no food at all. This is a true statement as far as it goes, and a great many dyspeptics go only this far with their reasoning. They argue with themselves that because their stomachs do not do the work given them, they must be given less work; in other words, they must be starved. It would be just as sensi-ble for a business man who is unable to do all his own work to cut down his to do all his own work to cut town his business to his own capacity as it is for a man to starve himself to relieve his stomach. The sensible business man employs help and goes forward with his business. Likewise the sensible dyspeptic will employ help for his decided and sensible dyspeptic will employ help for his stomach and give his body proper

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts are identical with those of the digestive fluids and secretions of the stomach and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would good, strong, healthy stomach would

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contains in what is contained any out. tained in what is eaten and carry out Nature's plans for the sustenance and maintenance of the body.

How much more sensible is this method than that employed by many

this means the body and brain get all the good nutritious food they need and the man is properly nourished and equipped to carry on his work and perform his duties. He could not possibly be in properly working condition sibly be in proper working condition by starving himself or employing some new-fangied, insufficient fed that does not contain enough nutriment for year-old baby. A strong men do-ng strong work must be properly fed and this applies to the brain as well

Stuart's Dyspepsia Tablets, by relieving the stomach of its work, en-able it to recuperate and regain its normal health and strength. Nature repairs the worn and wasted tissues just as she heals and knits the bone of a broken limb, which is of course not used during the process of re-

Stuart's Dyspepsia Tablets are for sale by all druggiets at 50 cents a box and shey are the one article that the druggist does not try to sell something in the place of that's "just as good." Their unqualified merit and success and the universal demand for them has placed them within the reach

DO THE WORK HAZELHURST GETS MORE COPPER THIEVES Clever Detective Work at Waterbury

> by Norwich Sleuth. There was a big roundup of alleged copper thieves at the factory of the Scoville Mfg. Co. at Waterbury Sat-. Twenty-eight employes, who charged with theft of copper urday. and other metal goods, were arrested and eight junk dealers, charged with receiving the stolen goods, were also locked up. The junk dealers were re-

leased under ball of \$500 each. Charles E. Hazelhurst of this city, a private detective, secured the evidence he and four assistants working among the men and getting all the evidence necessary, and they also secured the evidence against the junk dealers.

The total amount of the lars to the Scoville company is not known, but it is estimated to be around \$10,000. The thieving has been going on for months it is claimed and it was about four months ago that the detectives were first put on the case. The first batch of employes were locked up at four o'clock Saturday morning, they being night workers. The day workers were night workers. The day workers were arrested after they entered the fac-

tory at 7 o'clock.

In the city court Saturday morning all the cases were continued until Tuesday morning at 9 o'clock, Most of the employes arrested are foreigners. One of them, Daniel T. Griffin, has nine counts of theft against him, while the others have from one to three counts each.

Mr. Hazelburst has much experience with copper thieves and it was he who ran down the men who stole the c per from the New Haven road's rails north of Jewett City and later caused the arrest of the junk dealers, who are now serving their time in jail.
